IMPROVING THE COLLECTION OF Social Determinants of Health (SDOH) Data with ICD-10-CM Z Codes

What Are Z Codes?

What Are SDOH & Why Collect Them?

SDOH-related Z codes range from ICD-10-CM categories Z55-Z65 and are used to document SDOH data (e.g., housing, food insecurity, lack of transportation)

Z codes refer to factors influencing health status or reasons for contact with health services that are not classifiable elsewhere as diseases, injuries, or external causes

Using Z Codes for SDOH

SDOH information can be collected before, during, or after a health care encounter through structured health risk assessments and screening tools

- These codes should be assigned only when the documentation specifies that the patient has an associated problem or risk factor that influences the patient's health
- Coding professionals may utilize documentation of social information from social workers, community health workers, case managers, or nurses, if their documentation is included in the official medical record

SDOH information can be collected through person-provider interaction or self-reported, as long as it is signed-off on and incorporated into the medical record by a clinician or provider

SDOH are the conditions in the environment

where people are born, live, learn, work, play,

worship, and age that affect a wide range of

and risks¹

health, functioning, and

guality-of-life outcomes

The World Health

Organization (WHO)

estimates that SDOH

health outcomes²

accounts for **30-55% of**

It is important to screen for SDOH information at each health care encounter to understand circumstances that may have changed in the patient's status

VIEW JOURNEY MAP

¹ Healthy People 2030 ² World Health Organization and research by:

Empowering providers to identify and address health disparities (e.g., care coordination and referrals)

Supporting quality measurement

Supporting planning and implementation of social needs interventions

New SDOH Z codes may become effective each April 1 and October 1. New codes are announced prior to their effective date on CDC website

Maintenance Committee

Collecting SDOH can improve equity in health care delivery

Identifying community and population needs

Monitoring SDOH intervention effectiveness for patient outcomes

Utilizing data to advocate for updating and creating new policies

ICD-10-CM Z Codes Update

Use the CDC National Center for Health Statistics ICD-10-CM Browser tool to search for all the current Z codes.

Join the public process for SDOH code development and approval through the ICD-10-CM Coordination and

IMPROVING THE COLLECTION OF Social Determinants of Health (SDOH) data with ICD-10-CM Z Codes
