

**AmeriHealth Caritas**<sup>™</sup>  
District of Columbia

**To:** AmeriHealth Caritas District of Columbia Providers  
**Date:** August 31, 2023  
**Subject:** Distribution of 2023-2024 Flu Vaccines

Dear Provider:

The DC Health Immunization Division announced the distribution of the 2023-2024 Vaccines for Children (VFC) and limited 317 flu vaccines.

Starting September 1, 2023, you may log in to the Vaccine Order Management System (VOMS) and order your preferred brand of VFC flu vaccines from the vaccine order set. Please remember to screen for VFC vaccine eligibility and procure necessary doses for your non-VFC eligible children.

There is no set ordering frequency for VFC flu vaccines, but DC Health requests you place your order before running out of inventory and allow for at least seven days between ordering and delivery. DC Health has assigned the brands and quantities for your initial order. Refer to the brand assigned to your PIN in the table below and do not exceed the quantity assigned. Orders received will be processed for immediate delivery. Please do not schedule a flu vaccination event prior to receipt of vaccines in your inventory.

AmeriHealth Caritas District of Columbia (DC) enrollees may go to their primary care provider or a pharmacy in our network with a photo ID and an AmeriHealth Caritas DC ID card to receive a flu shot at no cost. Please encourage your patients who are AmeriHealth Caritas DC enrollees to get their flu shot. If an AmeriHealth Caritas DC enrollee does not know where to go to get their flu shot, please direct them to call our Community Outreach Solutions team at 202-216-2318.

To view the Centers for Disease Control and Prevention (CDC) flu vaccination recommendations, visit <https://www.cdc.gov/flu>.

If you have questions about this communication, please contact your AmeriHealth Caritas DC Provider Account Executive or Provider Services at 1-202-408-2237 or 1-888- 656-2383. Thank you for your cooperation.

Sincerely,

AmeriHealth Caritas DC
