Reimbursement Policy ID: RPC.0018.5400

Recent review date: 02/2025

Next review date: 02/2026

AmeriHealth Caritas District of Columbia reimbursement policies and their resulting edits are based on guidelines from established industry sources, such as the Centers for Medicare and Medicaid Services (CMS), the American Medical Association (AMA), state and federal regulatory agencies, and medical specialty professional societies. Reimbursement policies are intended as a general reference and do not constitute a contract or other guarantee of payment. AmeriHealth Caritas District of Columbia may use reasonable discretion in interpreting and applying its policies to services provided in a particular case and may modify its policies at any time.

In making claim payment determinations, the health plan also uses coding terminology and methodologies based on accepted industry standards, including Current Procedural Terminology (CPT); the Healthcare Common Procedure Coding System (HCPCS); and the International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CM), and other relevant sources. Other factors that may affect payment include medical record documentation, legislative or regulatory mandates, a provider's contract, a member's eligibility in receiving covered services, submission of clean claims, and other health plan policies, and other relevant factors. These factors may supplement, modify, or in some cases supersede reimbursement policies.

This reimbursement policy applies to all health care services billed on a CMS-1500 form or its electronic equivalent, or when billed on a UB-04 form or its electronic equivalent.

To the extent that any procedure and/or diagnosis codes are specified in this policy, such inclusion is provided for reference purposes only, may not be all inclusive, and is not intended to serve as billing instructions. Listing of a code in this policy does not imply that the service described by the code is a covered or non-covered health service. Benefit coverage for health services is determined by federal, state, or contractual requirements and applicable laws that may require coverage for a specific service. The inclusion of a code does not imply any right to reimbursement or guarantee claim payment. Other Policies and Guidelines may apply.

Policy Overview

This policy describes reimbursement of claims for acupuncture services.

Exceptions

Reimbursement Guidelines

Acupuncture is defined as a form of alternative medicine in which thin needles are inserted into the body. Acupuncture is covered for members ages 7-17 for headache and migraines. Acupuncture is covered for members aged 1 and older for postoperative pain and postoperative nausea and vomiting. Acupuncture is a covered benefit for members aged 18 years and older for the following conditions: Chronic migraine, knee osteoarthritis, low back pain, nausea and vomiting, and temporomandibular disorder.

Reimbursement for covered acupuncture services may be made to eligible providers. Providers must submit clean claims, consistent with AmeriHealth Caritas District of Columbia and industry-recognized billing guidelines, using appropriate codes and modifiers. Services must be medically necessary.

The ranges of procedure codes for acupuncture services are Current Procedural Terminology (CPT) 97810-97814 and 20560-20561 (trigger point):

CPT code	Description
97810	Acupuncture, 1 or more needles; without electrical stimulation, initial 15 minutes of personal one-on-one contact with the patient
97811	Acupuncture, 1 or more needles; without electrical stimulation, each additional 15 minutes of personal one-on-one contact with the patient, with re-insertion of needle(s) (List separately in addition to code for primary procedure)
97813	Acupuncture, 1 or more needles; with electrical stimulation, initial 15 minutes of personal one-on-one contact with the patient
97814	Acupuncture, 1 or more needles; with electrical stimulation, each additional 15 minutes of personal one-on-one contact with the patient, with re-insertion of needle(s) (List separately in addition to code for primary procedure)
20560	Needle insertion(s) without injection(s); 1 or 2 muscle(s)
20561	Needle insertion(s) without injection(s); 3 or more muscle(s)

Refer to CPT/HCPCS manuals for complete descriptions of procedure codes and their modifiers, and to the ICD-10-CM manual for guidelines and descriptions of diagnoses and other conditions. Refer to AmeriHealth Caritas District of Columbia billing resources for fee schedules and billing guidelines.

Definitions

Acupuncture

Acupuncture is the technique of inserting thin needles through the skin at specific points on the body to control pain and other symptoms.
