To: AmeriHealth Caritas District of Columbia Dental Providers

Date: July 19, 2018

From: Nathan Fletcher, D.D.S., Dental Director

Subject: Endodontic Therapy

Effective immediately, the procedures (procedure codes listed below) for Endodontic Therapy will require a post-operative x-ray showing the completed treatment. Per the CPT Code book, complete root canal therapy, by definition, is appropriately filled canals.

- D3310, D3320, D3330
- D3331, D3332, D3333

The CDT Code book describes endodontic therapy as being inclusive of the pulpectomy as a part of the complete root canal therapy; this includes all appointments necessary to complete the therapy and the intra-operative x-rays.

- D3346, D3347, D3348

All Endodontic Retreatment (procedure codes listed above) will require pre-operative and post-operative x-rays.

Failure to provide this required documentation will result in a denied claim payment until the documentation has been submitted. Submission of the required x-rays should be incorporated into your routine submissions.
