## How to Use This Guide

This guide is a collection of resources for our hospital and provider partners to aid you in providing the best care to our members — your patients. This guide is intended to be used as a reference guide when referring AmeriHealth Caritas District of Columbia (DC) members for services.

**In this collection of materials, you will find the following resources:**

- Discharge planning quick reference guide
- Discharge planning checklists
- Discharge Planning Form
- Listing of ancillary network providers

You can find out more information about AmeriHealth Caritas DC by visiting our website at [www.amerhealthcaritasdc.com](http://www.amerhealthcaritasdc.com).

# Discharge Planning Quick Reference Guide

AmeriHealth Caritas DC has produced this Discharge Planning Guide to provide procedural steps and documents needed to request discharge planning services for patients who need durable medical equipment (DME), home care services, and placement into a facility for rehabilitation services, such as skilled nursing, subacute care, long-term acute care, and acute care. Authorization requests, including all applicable information, can be submitted via fax to **1-855-355-0700**. For additional assistance, contact the AmeriHealth Caritas DC Utilization Review department at **202-408-4823**. Detailed information is available by logging on to our website at **[www.amerihealthcaritasdc.com](http://www.amerihealthcaritasdc.com)**.

Follow these discharge planning steps

## **Step 1. Obtain a signed provider's order.**

A signed provider's order or treatment plan must be included with a request to initiate a referral for patient placement into a facility for rehabilitation services and to request home care services or DME. Without the signed provider's order, the processing of these requests will be delayed.

## **Step 2. Create a treatment plan with the information listed below.**

1. Specific measurable long- and short-term goals
2. A reasonable estimate of when these goals will be reached
3. The specific modalities and/or therapeutic procedures to be used during the treatment
4. The frequency and duration of treatment

## **Step 3. Complete the clinical review process.**

Upon receiving all requested information, the Clinical Care Reviewer will review the request for medical necessity and determine whether to approve the request within 24 to 48 hours. AmeriHealth Caritas DC will notify requesters if required information is missing. Requesters will then have 24 hours after receiving notification to provide the requested clinical information. Processing of requests will be delayed if the plan does not receive all requested information.

## **Step 4: Await notification.**

The Clinical Care Reviewer notifies providers by fax and phone of the approval or denial of transfer requests and the reasons for denials, advises providers of information missing from requests, and documents provider notifications into AmeriHealth Caritas DC's system. When the Clinical Care Reviewer approves requests, the plan will notify requesters by phone or fax. AmeriHealth Caritas DC will also notify requesters if the plan does not approve requests, and requesters will have the right to request peer-to-peer reviews at **1-877-759-6274**.

### Other important information:

1. Patients must have been hospitalized as inpatients for at least three days (not including day of discharge) and, in most cases, must be admitted to a skilled nursing facility (SNF) within 30 days after being discharged from a hospital
2. A physician must certify the prescribed treatment plan requires skilled care
3. The member must require skilled nursing or skilled rehabilitation services, or both, on a daily basis
4. Skilled nursing and skilled rehabilitation services are those which require the skills of technical or professional personnel such as registered nurses, licensed practical nurses, physical therapists, and occupational therapists. Services are deemed skilled when the service is of a complex nature that can only be safely and effectively performed by or under professional or technical supervision.

# Discharge Planning Checklists
