**To:** AmeriHealth Caritas DC Providers  
**Date:** April 5, 2022  
**Subject:** Integrated Care DC Newsletter

Dear Providers,

The District of Columbia's Department of Health Care Finance in partnership with the DC Department of Behavioral Health, manages a five-year program known as the Integrated Care DC Program. This technical assistance program aims to enhance your practice's capability to deliver person-centered care across the care continuum; use population health analytics to address complex medical, behavioral health, and social needs; and engage leadership to support value-based care.

We encourage you to sign up for the Integrated Care DC Newsletter at the link below. The newsletter features webinars, funding opportunities, continuing education resources, and more!
